

## **Accounting**

1. If you are interested in following Accounting as a career or would like to arrange a period of work experience, contacting local accounting companies during the Summer break could prove to be an advantage. There are several companies in the Chesham and Amersham area . You will need to carry out your own research but you should be able to find at least a few that you will be able to contact.
2. You will need to complete a series of exam questions that I will post on Show My Homework at the end of July. These will be reviewed at the start of Year 13.
3. Please carry out some brief research on a Private Limited Company (a company with 'Ltd' after the company name). Your report should include a brief outline of the main business of the organisation together with evidence of their current financial position (key information can be found online).
