

## Biology

You will be given a booklet in class on how to answer essay style questions. This will have hints and tips on how to correctly answer these types of questions to ensure you maximise your marks for these. Ensure you employ these when answering the essay questions posed.

**Extra reading:** any science magazine published (*New Scientist* etc.) or the science/technology sections of newspapers. Be on the lookout for articles related to the course material already covered and bring to school in September.

**Visits:** Science museum, Natural History Museum, ThinkTank museums (across the country)

## Chemistry

You have been provided with a Letts AS workbook. Please complete all the sections as directed by your teacher to ensure your smooth transition into A2.

**Extra reading:** any science magazine published (*New Scientist* etc.) or the science/technology sections of newspapers. Be on the lookout for articles related to the course material already covered and bring to school in September

**Visits:** Science museum, Natural History Museum, ThinkTank museums (across the country)

## Physics

Having reviewed your July assessment you will be able to see which areas you need to work on. You will be provided with a question pack to help you correct any issues that were identified from the assessment. You must ensure you revise and complete this work to a high standard

**Extra reading:** any science magazine published (*New Scientist* etc.) or the science/technology sections of newspapers. Be on the lookout for articles related to the course material already covered and bring to school in September
