

Diploma in Financial Studies

1. If you are interested in following a career in Finance or Accounting, or would like to arrange a period of work experience, contacting local Finance-related or Accounting companies during the summer break could prove to be an advantage. You will need to carry out your own research but you should be able to find several that you will be able to contact. Do not expect a reply from every company you contact.
2. You will need to complete Topic 2 of Unit 3 over the holidays. Details about this will be posted on Show My Homework at the end of July. Topics 1 and 2 of Unit 3 will be reviewed at the start of Year 13.
3. Please stay in contact with news broadcasts, online podcasts and any other outlet that may provide useful finance-related articles. These can then be incorporated into work studied in Year 13.
