## PREFACE

Chiltern Hills Academy is a learning environment at the heart of its community. We encourage every person in our community to:

### **Create, Aspire and Excel to 'Live life in all its fullness' (John 10:10)**

We achieve this through our dedication to the seven Christian values of love, hope, self-discipline, compassion, forgiveness, respect and honesty.

We are a community in which staff, students and parents work collaboratively to develop a learning environment and organisation which is spiritual, safe, innovative, creative and exciting. All members of the Academy are motivated and inspired by the vision to give their best and to play a full part in the life of the school and in their own developing lives.

The Governors at Chiltern Hills Academy are committed to achieving the vision and values. They oversee and monitor this policy to ensure that this is being achieved.

Chiltern Hills Academy's values and ethos are promoted through adults, whether teachers or non-teaching staff, modelling behaviours in order to provide strong role modelling of what is expected. In addition, the Academy promotes these values through collective worship, tutor work and through the wider curriculum.

We equally acknowledge the need to promote British Values as outlined in guidance from the Department for Education (DfE).

The list below describes the understanding and knowledge expected of students as a result of schools promoting fundamental British values (DfE Promoting fundamental British Values as part of SMSC in schools – November 2014)

- An understanding of how citizens can influence decision-making through the democratic process;
- An appreciation that living under the rule of law protects individual citizens and is essential for their wellbeing and safety;
- An understanding that there is a separation of power between the executive and the judiciary, and that while some public bodies such as the police and the army can be held to account through Parliament, others such as the courts maintain independence;
- An understanding that the freedom to choose and hold other faiths and beliefs is protected in law;
- An acceptance that other people having different faiths or beliefs to oneself (or having none) should be accepted and tolerated, and should not be the cause of prejudicial or discriminatory behaviour; and
- An understanding of the importance of identifying and combatting discrimination.

## POLICY OBJECTIVES

### Spiritual Development

1. To promote the development of personal beliefs and creative expression
2. To foster a sense of community within students and to build self-respect and respect for others
3. To encourage an enquiring attitude to the meaning and purpose of life and appreciation of the natural world and man's achievement in it

### Moral Development

- To develop students' ability to make reasoned judgements on moral issues

### Social Development

- To encourage strong personal contributions to the well-being of social groups and to form effective relationships with them

### Cultural Development

- To develop the students' understanding of the diversity of religious, social, aesthetic, ethnic and political traditions and practices – nationally and internationally

Chiltern Hills Academy recognises its importance in the spiritual, moral and cultural development of the young people whom it educates. The potential for spiritual development is in everyone and not confined to a particular religious belief or faith or to a particular occasion such as collective worship.

## MONITORING

1. During Governor visits, governors will discuss and review evidence of spiritual, moral and cultural development throughout the Academy.
2. The Learning and Teaching Committee will review evidence of spiritual, moral and cultural development through development plans and feedback from Governor reports.

## REVIEWING

The Governing Body is responsible for reviewing its policies and the Principal is responsible for reporting on the implementation of the policy.

1. Has the policy been successfully implemented?
2. Has the policy had the intended impact in the Academy and on the young people?
3. Are the current objectives to remain the same and do they support other policies and development priorities?
