

Y11 visit to Pinewood Studios

Last week a number of Year 11 Media students visited Pinewood Studio, home to screen classics such as 'James Bond', 'Star Wars' and 'Marvel Cinematic Universe'.

Zakra Hussain, Year 11, wrote the following review of the trip.

This trip to Pinewood Studios was a great experience. We were taken to many sets and upcoming sets for future movies. We were shown the different roles and jobs that are required to make a set work. The people there were very welcoming and showed us different cameras that film different shots and angles. This overall was a very exciting and educational trip that I believe future media students should go on.
