

Expanding Horizons

Year 11 Visit Bucks New University

In December 2022 some of our Year 11 students visited Bucks New University. This formed part of a series of university visits for all of Year 11s aiming to raise awareness of higher education and show students that university is an achievable option open to them in the future.

Bucks New University is ranked within the top 100 universities in the UK (Guardian University Guide) and is a future- thinking establishment. Every degree offered incorporates a hybrid learning process, where students learn through traditional lectures and industry placements.

The day included a tour of the campus, study skill pathways and a Q&A with student ambassadors so they could find out what it is really like to attend university, as well as the decisions and choices they need to make before they go.

The Bucks New University trip was an enjoyable, fun and exciting experience, with many different paths to choose from and helpful staff and students. After the trip we have more knowledge about university that will help us in our future pathways.
