

Year 9 visit to Bucks New University

December 2024

Last week, Year 9 students had the exciting opportunity to visit Bucks New University. This trip was designed to give students a glimpse into the world of higher education and help them explore potential career paths.

Bucks New University is renowned for its courses in areas such as healthcare, creative industries, and business, with a focus on providing students with real-world skills. The university is ranked 65th in the UK and consistently ranks highly for student satisfaction (1st in the UK).

During the visit, students participated in a range of engaging activities, including interactive workshops and a tour of the campus. They were introduced to various university courses and career opportunities, helping them to start thinking about their future educational and professional journeys.

The highlight of the day was hearing from current students and lecturers who shared their experiences and insights, offering valuable advice on what university life is really like and how students can best prepare for it. This visit gave students a unique opportunity to consider their options beyond school and begin to envision the paths they could take.

“Our son, participated in your trip to Buckinghamshire New University today. He thoroughly enjoyed himself and it has cemented the idea in his mind that going to university is the path he wishes to take, especially if he can study a STEM subject. This trip has helped him to make positive decisions about his future” Y9 Parent
