

## Y12 Mock Assessment Centre Event – Friday, 14th February

On Friday, 14th February, 25 Year 12 students participated in an engaging and challenging mock assessment centre, facilitated by BAM as part of our Cornerstone Employers programme. The event provided students with a unique opportunity to experience a real-life recruitment process and gain valuable insights into the skills needed for future employment, apprenticeships, supported internships, and university applications.

The students worked in teams and were tasked with building a house using LEGO bricks to a strict specification, within a tight deadline. This hands-on challenge tested their problem-solving abilities, communication skills, and capacity for teamwork. Students were required to collaborate efficiently, delegate responsibilities, and solve problems under pressure while adhering to the given specifications.

The mock assessment centre was structured to mirror a typical recruitment process. Throughout the event, students showed impressive levels of engagement, and many demonstrated significant growth in their skills, – all crucial for success in any future career, and the mock assessment provided a valuable learning curve for all participants.

We would like to extend our sincere thanks to BAM for facilitating this insightful and valuable event.
