

## BCA Visits Chiltern Hills Academy: Inspiring Future Pathways for Year 8 and 9

Last week, students in Year 8 and Year 9 had the opportunity to hear from representatives of the Berkshire College of Agriculture (BCA) during a special assembly.

The team from BCA delivered an engaging and informative presentation, introducing students to the wide range of courses available at the college. They highlighted the many different subject areas on offer, including animal management, equine studies, sport, business, and environmental sustainability.

A key part of the session focused on helping students understand the various qualification routes available after GCSEs, including BTECs and the newer T Levels. The visitors explained how these options provide hands-on, career-focused learning and can lead to further education, apprenticeships, or employment.

The assembly was a great opportunity for students to start thinking about their futures and explore the many exciting pathways available to them.

We thank BCA for visiting and inspiring our students as they begin to consider their next steps
