

Bucks College Group Visit Inspires Year 10 Students

We were delighted to welcome Bucks College Group into school this week, for a special visit with our Year 10 students. The team came in to talk about the wide range of opportunities available at their college – and to announce the winner of their exciting competition from the Bucks Skills Show!

Congratulations to Phoebe in Year 10, who was announced as the winner and was excited to receive an ASUS Chromebook. Well done, Phoebe!

During their visit, Bucks College Group introduced students to the many courses they offer, including T Levels and BTECs, which are practical, career-focused qualifications designed to prepare students for the world of work or further study.

Students also explored the unique offerings at each of Bucks College Group's three campuses:

- Amersham Campus – the creative hub, offering courses in TV and media production, performing arts, and design, with access to industry-standard equipment.
- Aylesbury Campus – the largest campus, specialising in construction, digital arts, technology, and now home to a brand-new salon and spa.
- Wycombe Campus – known for its facilities in motor vehicle studies, science labs, and health and childcare programmes.

Excitingly, the college is expanding its T Level offering (equivalent to 3 A Levels with 45-day work placement), with new courses in Marketing and Civil Engineering introduced this year.

For students who already have a clear idea of the career they want to pursue, college can be a great option to specialise in that area early on through vocational course. A big thank you to Bucks College Group for an informative and inspiring session – it's great for our students to learn about the different pathways available to help shape their futures!
